

Please DO NOT weaken our RIGHTS to have PRIVACY from the constant inundation of sales and marketing in our own homes. Not many years ago people who were BEING PAID to uphold simple and just practices we still need ACTUALLY DID JUST THAT. Now it seems the common man HAS NO RIGHT to solitude of ANY kind. Do something to actually make people think that you MAY be acting on THEIR behalf, rather than reinforcing the growing belief that only the RICH or POLITICALLY CONNECTED have the right to any form of privacy.
